Thank you very much for the card and especially the Canal map. The only real problem is that [redacted] seems to have a depth less than 1.40 meters, which I am trying to convert to our antediluvian measurement system to determine just how deep a draft of a boat that I don't own should be. Nonetheless, thanks again for your kindness on this as well as your kindness during the visit. I am still anticipating your arrival and your launching off into the new job we discussed.

Sincerely,

/s/ Bill

Dear Bill,

Here is the membership card. Sorry for the delay, but the organization wanted to go ahead and make you a new card; and as I am sure you know speed is not one of the attributes of any bureaucracy [redacted] and this veterans' group seems to follow the pattern. In addition, I am forwarding the canal map.

As I am sure you're aware, we are moving into an increasingly hectic phase in the election campaign. Hope the results are not going to be painful.

It was good seeing you and having a chance to talk at length. I am still looking forward to the new job and hope to see you this summer, assuming all remains relatively calm here.

Best regards,

25X1

P.S. The money you left to pay your dues was more than adequate. We are enclosing the change (\$5.00).
